It is your responsibility to find a piano accompanist. On this paper, I have listed three options for you, however if you know of someone else you may contact them as well. Contact an accompanists as soon as possible.

It is your responsibility to set up AT LEAST 2 practice times prior to the February 10th performance.

Options for working with your Accompanist

- You can have your pianist come in during class time.
- Seminar Time
- After school
- Set up a rehearsal at your pianists house

As soon as a band director tells you your performance times it is YOUR responsibility to inform your pianist.

It is customary to pay your pianist \$25 for their time and effort.

- A thank you card is also a good idea.

To help prepare for your first rehearsal make sure you know the notes and rhythms of your piece and practice with a metronome.
